Research Summary

Physical oceanographer focused on multiscale air-sea interactions. Combines theory, numerical modeling (e.g., ROMS-WRF, MOM6) with satellite/in-situ observations to investigate air-sea fluxes and turbulent dynamics.

Research Interests

Air-sea Interactions; Physical Oceanography; Turbulence; Geophysical Fluid Dynamics

Education

Ph.D. Mechanical Engineering Sep 2017 – Aug 2023
University of Rochester, NY
Thesis: *Scale Analysis of Wind Work on the Oceanic General Circulation*
Advisor: Dr. Hussein Aluie

B.E. Mechanical Engineering Oct 2010 – Feb 2015
Tribhuvan University, Nepal

Academic Appointments

Postdoctoral Investigator Aug 2023 – Present
Woods Hole Oceanographic Institution, MA

- Investigating multiscale air-sea interaction dynamics in the Tropical Pacific using coupled regional models (ROMS-WRF SCOAR).
- Using machine learning frameworks to reconcile discrepancies between satellite and in-situ wind measurements (QuikSCAT, ASCAT, TAO arrays).

Graduate Research Assistant Summers 2018, 2019
Los Alamos National Laboratory, NM

- Investigated the spatial scales of ocean surface wind forcing on mesoscale ocean dynamics using QuikSCAT observations and CESM/POP2 outputs.
- Modified and implemented analytical wind forcing and relative wind stress parameterizations in MOM6 for multiscale analysis of air-sea momentum fluxes.

Teaching Experience

- Fluid Dynamics of the Atmosphere and Ocean (TA Graduate course, Fall 2024, MIT-WHOI)
- Turbulence (TA Graduate course, Fall 2022, University of Rochester)
- Thermodynamics (TA Undergraduate course Spring 2018, University of Rochester)
- Solid Mechanics Lab (TA Undergraduate course, Fall 2017, University of Rochester)

Grants and Awards

- Selected with travel award, Physical Oceanography Dissertation Symposium (PODS) – 2024
- Travel Grant, US CLIVAR Air-Sea Workshop – 2023
- Travel Grant, SWOT FilaChange Workshop, Brown University – 2022
- Selected with travel award, Boulder Summer School in Condensed Matter Physics – 2022
- Merit Scholar, Rank 1 (out of ∼8000), Engineering Entrance Exam, T.U., Nepal – 2010

Service and Leadership

- Reviewer:
  - *Journal of Geophysical Research: Oceans*
  - *Journal of Physical Oceanography*
- Convener:
  - Session Convener: AGU Annual Meeting, Session AOS012 (2024)
  - Moderator: SWOT FilaChange Workshop, Brown University (2022)
- Leadership
  - Executive Committee:
    Junior Scientist Member-at-Large,
    APS Topical Group on Physics of Climate (2025–26)

Professional Associations

- American Physical Society
- American Geophysical Union

Industry Experience

CFD Engineer Feb 2017 – Jul 2017
Yokohama, Kanagawa, Japan

- Performed CFD simulations for parts and machinery used in natural gas plants.
- Relevant Skills: *HPC, Numerical Modelling, CFD, Parallel Computing*

CAD/CAE Engineer Nov 2014 – Feb 2017
E & T Nepal/ E & T Co. Japan
Sallaghari, Bhaktapur, Nepal/Utsunomiya, Tochigi, Japan

- Performed CFD simulations for automobile parts.
- Led the development and validation of the dynamic core in an in-house CFD solver.
- Relevant Skills: *C++, Numerical Modelling, Parallel Computing, CUDA, CAD, CFD*

Technical Skills

Programming: Python, FORTRAN, C, C++, MATLAB
HPC: MPI, OpenMP, mpi4py
Ocean/Atmosphere/Earth-System Modeling: ROMS, WRF, MOM6, CESM
CFD Tools: ANSYS Fluent, CFX, ICEM CFD
CAD Tools: CATIA, SolidWorks, AutoCAD
